

The Golden Leaf Foundation has over \$600 million in taxpayer funds in its account. Which of the following actions would you prefer the legislature take with that money

Use that money to do things such as pay the state portion of the state employee retirement contribution for 2011 and balance the state budget

...OR...

Leave the money with Golden Leaf so the foundation's politically appointed 15 member board of directors can continue to grant money for economic development and to local areas of the state?
