Thanks for the numbers from today!

On the incident, I guess we should get Lee's notes to go with the incident report so we can be thorough. Has anyone (besides Lee) talked to the voter since we collected all the other information (sorry if you already told us that)? I am just a little concerned because she has reported it repeatedly.

I wish we could determine a better understanding of how these two versions (voter and worker) are so different!

Tensions are indeed high.

Thanks,

Ladene

Jack, Ladene, and David,

I have spoken with Lee. He was letting me know as a courtesy and not in any official capacity. It is the same situation that we discussed yesterday at the meeting that I wrote the incident report for. I did talk with the staff this morning before opening and will do so again going forward.

Would you like me to get the notes from Lee on Monday?

Thanks -- Karen

Subject: Complaint against a poll worker

Karen, today, at closing time, naturally, someone came into the Democratic office with a complaint against a poll worker saying, "Vote Republican. We want to get rid of these Democrats." Or words to that effect. I have more specific information in the log book at the office (names, description of the worker, etc.). Just thought I'd give you a heads-up. I believe this was reported to you the day it happened.

I'll call Monday or, better, maybe you could call me when you have some downtime. I'll be in the office from 10 am to 6 pm. 877-5225. Or use my cell phone below.

I sincerely hope you don't get too many of these. The last one, during the primary, made the paper.
